## THE GARDEN WALK

So relaxing to absorb the detail of this traditional British garden. It features a little bridge across a stream, a water fountain, a floral trellis to walk through and little pathways and streams to lead you towards the rest of the garden. Apple and pear trees feature as well as foxgloves, strawberry patches, a mini gooseberry bush, a pet cat and greyhound and two little rabbits chomping at some rhubarb.

## THE FLOWER PATCH

Sprawling garden patches, painterly wild flowers and hand-stitched patchwork quilts inspired this wallpaper print. It has a large repeat and carries an array of colour across the wall in such a delightful way.

## VERANDA STRIPE

This skinny stripe complements all the other feature designs in this collection, as well as being a striking feature in its own right. A timeless classic.

## NOSEY NEIGHBOURS

Witness the comings and goings of everyday town life in this unconventional wallpaper print. It captures human peculiarities yet at the same time human commonalities. Eavesdroppers and peeping toms feature along with gaming teens, romantic couples, fighting couples, kind neighbours, sunbathers, gym enthusiasts, disco divas, chilled guitarist, gardener, an eccentric dog walker, most oblivious to the chaos around them, but collectively creating the community which unites them. An everyday outdoor town scene where people are getting on with their everyday activities. Reassuring and feel good.

## THE SUNLIT TOUR

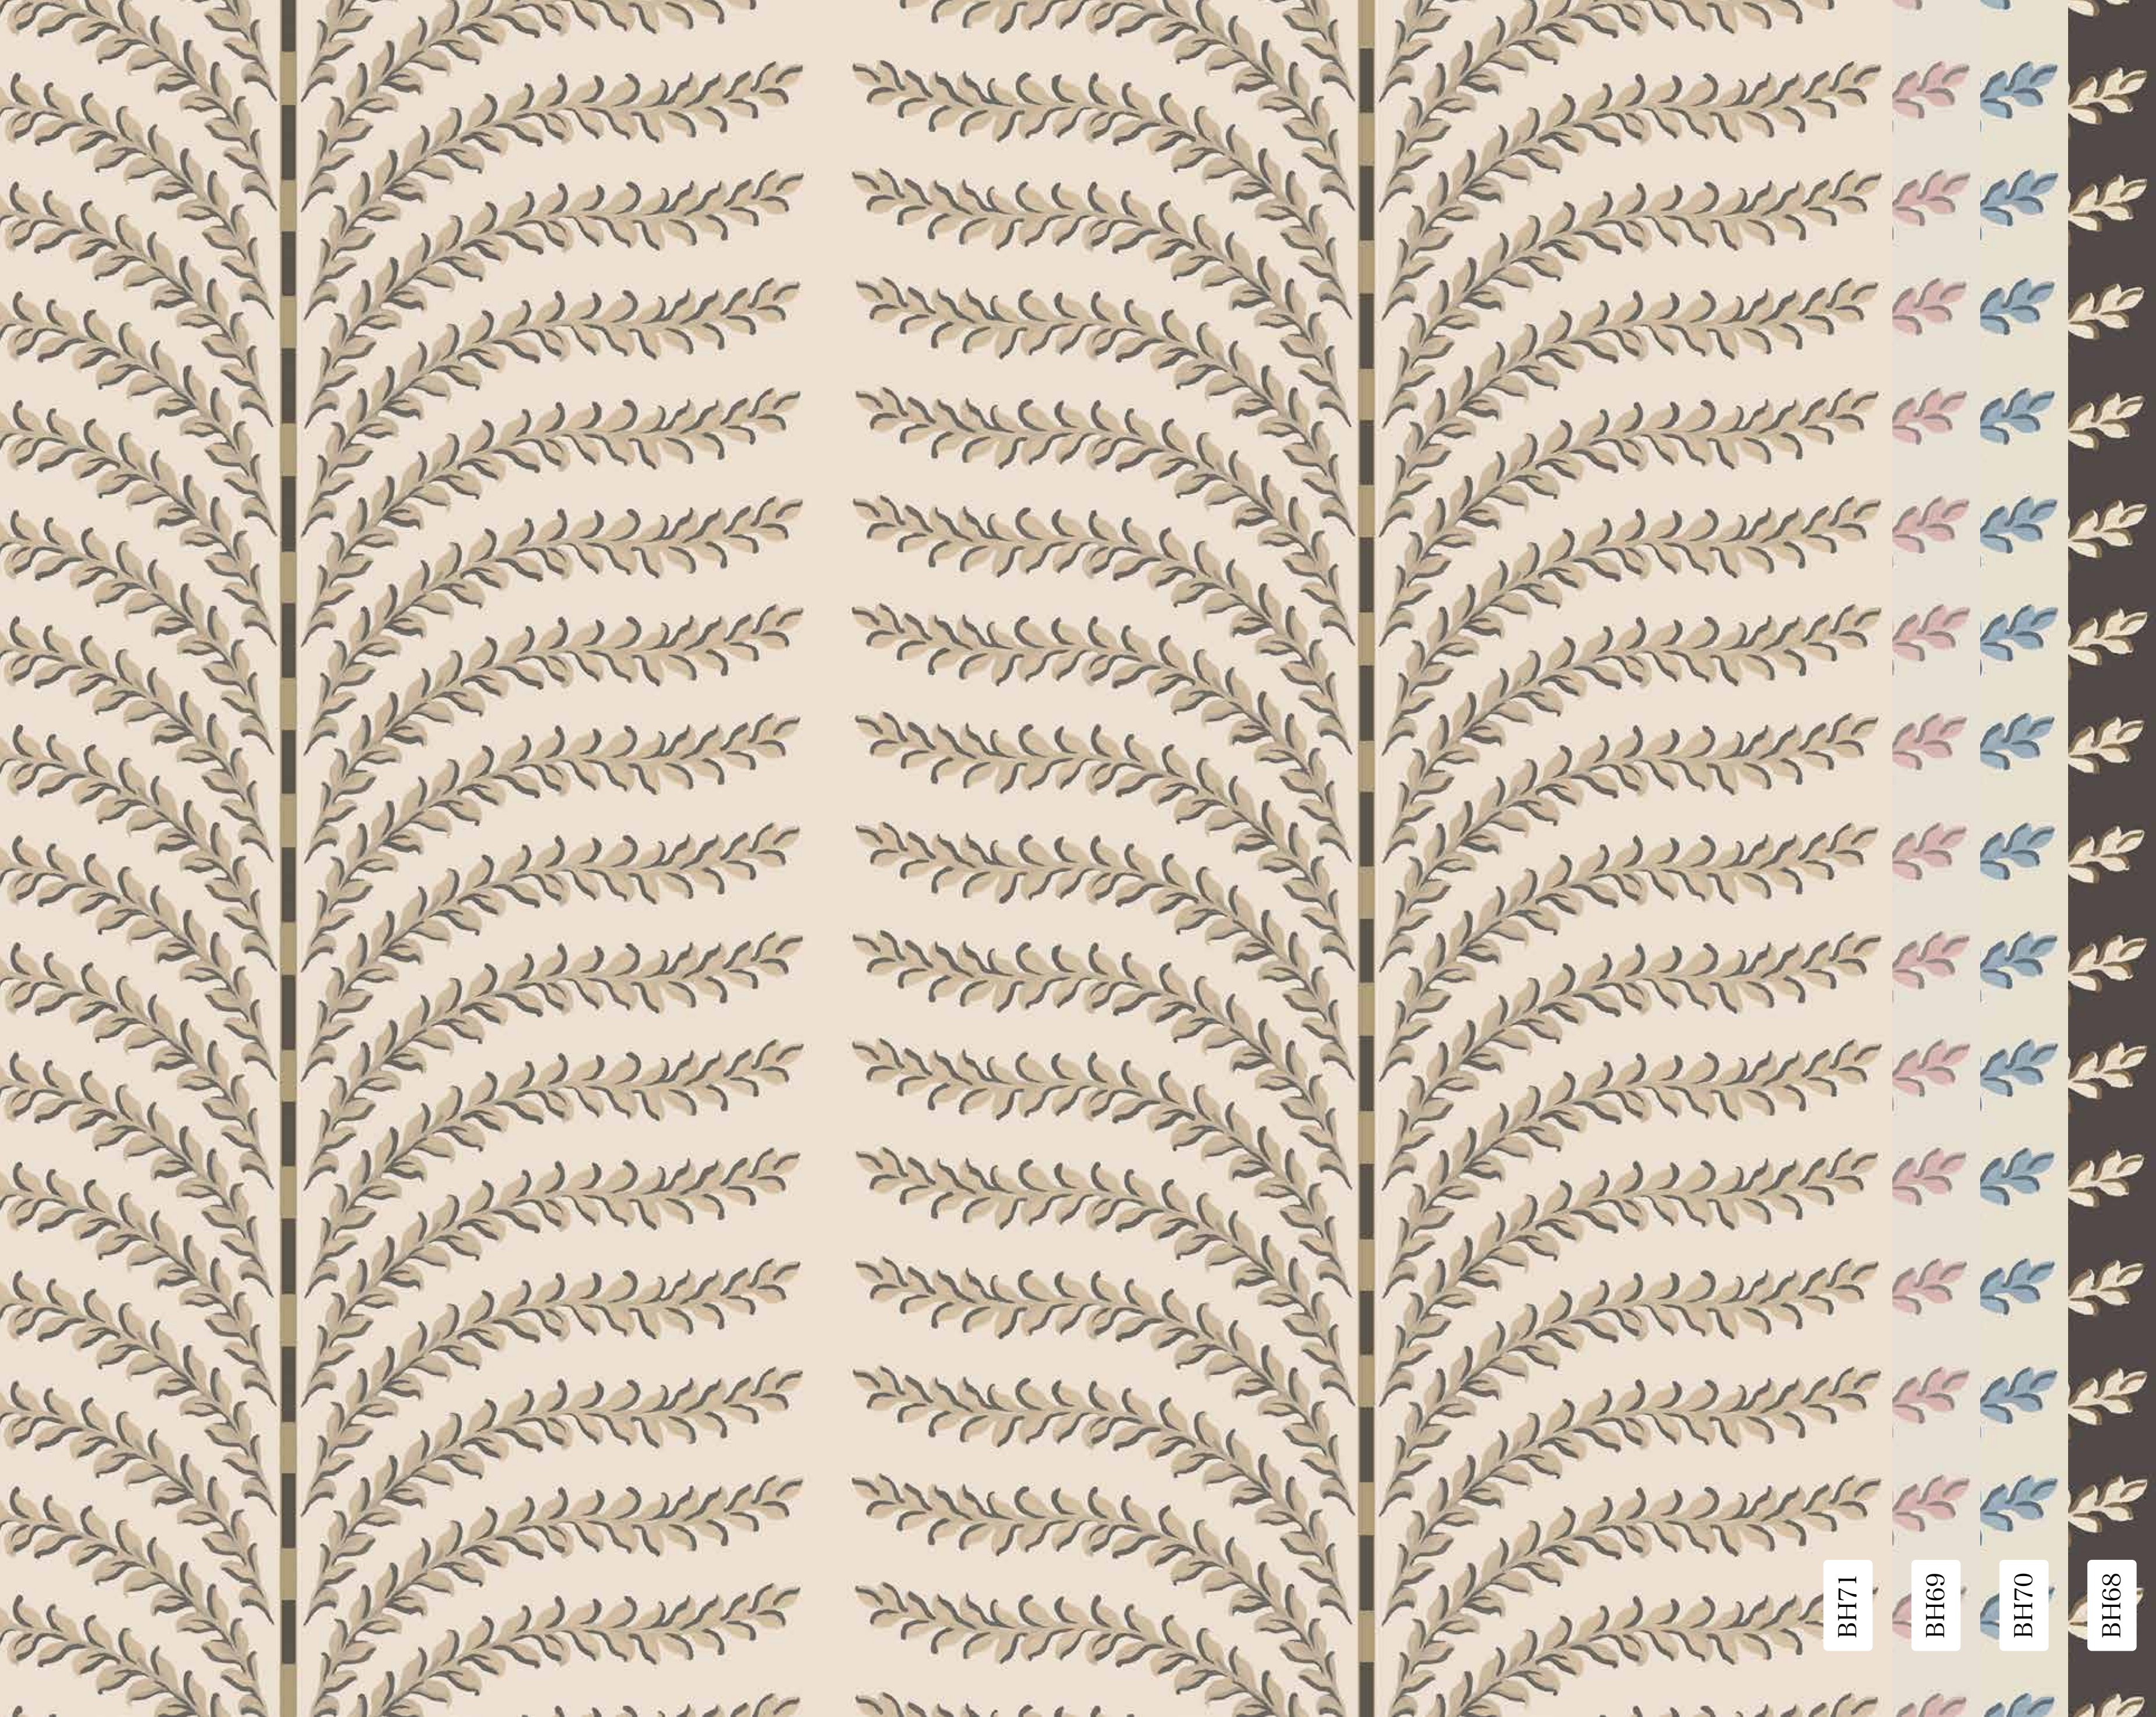

Inspired by vintage British humour and archive prints, this hand painted Palm print captures the sun shining on the tree tops, with a bit of a monkey escapade going on. The little monkeys are dressed in traditional clothing and costumes. The monkey bellboy is leading the way, running up through the palms with a rich hotel guest's luggage. The rich monkey traveller is swinging through the trees trying to keep up. The hotel workers are trying to show off their fire-eating and snake-charming skills to the traveller. A great print to provide a conversational backdrop.
